NE Publishing Group & Collective Thought Media are leading the way to a more organized and controlled website marketing strategy.

Develop Your Website Strategy

Collective Thought Media and NE Pub Inc. can help you to define your online and web marketing strategy. This includes establishing a content managed website, defining your eMarketing objectives, helping to create good web content, web advertising and linking, search engine optimization and connecting social media.

Unleashed Creativity & Technical Expertise

Our team includes industry experts with years of experience in creative graphic design, photography and branding. Combined with our knowledge of advanced web programming including dynamic website development (HTML, CSS, PHP, Javascript, Actionscript), server administration, and custom WordPress & CMS development, we are able to offer unparalleled services to compete your end to end website presence.

Unparalleled eMarketing Reach in the Golf Industry

We specialize in reaching the New England golf, real estate and sports markets. We interact with industry leaders every day and understand how to position your brand for maximum exposure. With website development combined with lifestyle advertising and linking, we represent the best value in golf and real estate web opportunities in New England.

Easy to Use Project Management Tools Included

All of our projects are managed using 37signals Basecamp, which is an industry standard, cloud based project management tool. This allows us to share project ideas, contact information, proofs, tasks and more than an easy to use online website.
